

25. Python Graphics: Text Objects (Review)

Mr. Neat

Lab 25

- This is a repeat of a Java Lab
- Start with a copy of the previous lab
- Using the Text object, display the number of clicks made
- Each time the mouse is clicked, a new Image should appear at a random place and the number of images (which is the same as the number of clicks) should be updated in the window.
- Adjust the size, color and style of the Text display to your liking
